

# BUSINESS MODEL CANVAS

## KEY PARTNERS

- Farmer cooperatives
- Solar technology suppliers
- Non-profit organizations
- Agricultural agencies
- Microfinance lenders
- Local material vendors
- Educational institutions
- Logistics companies
- Maintenance providers
- Research institutes
- Renewable energy experts
- Impact investors
- Rural electrification orgs
- Community leaders
- Extension services
- Environmental groups
- Women's empowerment orgs
- Youth development groups
- Media outlets

## KEY ACTIVITIES

- Manufacture cold storage units
- Source local materials
- Install in rural areas
- Conduct training programs
- Provide maintenance services
- Develop strategic partnerships
- Research and innovate
- Market and promote solutions

## KEY RESOURCES

- Bamboo and coconut husk
- Solar panels and batteries
- Skilled engineering team
- Manufacturing facilities
- Financial investments
- Technological expertise
- Distribution networks

## VALUE PROPOSITIONS

- Affordable cold storage units
- Price per unit: IDR 25 million
- Reduce losses by up to 25%
- Increase incomes by IDR 5–7M
- Solar-powered, off-grid solution
- Eco-friendly, local materials
- Flexible financing options
- Lease-to-own arrangements
- Comprehensive farmer training
- Support for women farmers
- Empowerment of youth groups
- Customized to farmer needs
- Enhance food preservation
- Reduce environmental impact
- Easy operation and upkeep
- Modular and scalable design
- Improve product quality
- Strengthen rural economies
- Innovative, sustainable model

## CUSTOMER RELATIONSHIP

- Dedicated support staff
- Personalized assistance
- Regular training sessions
- Community engagement events
- Open feedback channels
- Customer loyalty programs
- Preventive maintenance plans
- Updates and improvements

## CHANNELS

- Farmer cooperative networks
- Partnerships with NGOs
- Agricultural agency programs
- Digital communication tools
- Social media platforms
- Agricultural trade shows
- Local workshops and events
- Mobile applications and web
- Word-of-mouth referrals

## CUSTOMER SEGMENT

- Smallholder farmers
- Growers of perishable crops
- Farmer cooperatives
- Agribusiness SMEs
- Off-grid rural communities
- Women in agriculture
- Youth farming groups
- Low-income households
- Residents of remote areas
- Post-harvest processors
- Fruit and vegetable growers
- Rural entrepreneurs
- Agricultural associations
- Users needing cold storage
- Food supply chain actors
- Sustainable farming advocates
- Community influencers
- Local distributors
- Environment-conscious users

## COST STRUCTURE

- Production per unit: materials IDR 19.5M; labor & overhead IDR 3.5M
- Training programs: IDR 500M/year for capacity building
- Maintenance services: IDR 200M/year to ensure upkeep
- Administrative expenses: Salaries, offices IDR 300M/year
- Marketing & distribution: Promotions and events IDR 400M/year
- Research & development: Innovation and tech improvement IDR 300M/year
- Logistics & transportation: For materials and unit delivery
- Financing costs: Interest on loans and credits

## REVENUE STREAMS

- Unit Sales: IDR25M/unit; Y1:30 units, Y2:100 units, Y3:250 units
- Lease-to-own: IDR1.1M/month; Y1:50 units, Y2:200 units, Y3:500 units
- Maintenance Fees: IDR1M/unit/year; scalable
- Grants and Subsidies: Government and NGO support
- Consultancy Services: Advise farmers and cooperatives
- Partnership Funding: From strategic partners
